## **WELCOME**

Our 6th Annual on Property Bull Sale will be held on the 13th of July. Consisting of 50 bulls, 25 rising two year old Spring drop and 25 long yearling 16-17 month Autumn drop.

Twelve sons of Millah Murrah Nectar N334 will be offered. 9 sons in last years sale averaged a little under \$20,000. He is continuing to breed extremely well, excelling in structure, doing ability and phenotype. His females are very impressive, continuing to be standouts in the herd.

The Musgrave Exclusive sons excel in muscle expression and early growth. He breeds very consistently. 12 sons sell.

This will be the last offering of Cherylton Klooney M62 to sell. His progeny have been very consistent over the years. 9 sons sell.

Other sires to feature are Spicklers Powerpoint, Millah Murrah Laker L24 and Heart Capitalist P7.

We are extremely happy with the overall presentation and performance of this years sale bulls.

## **OUR NAME**

Our stud name Heart Angus comes from the brand of the upside down heart over the dumbbell that was handed down through the family from Chris' Great Grandmother Alice May Paterson from the property 'The Glen' at Dyers Crossing.

## **BREEDING GOALS**

Simply, our aim is to produce productive cattle to suit all markets.

Having a functional cow herd base concentrating on doing ease, fertility, structural soundness and carcase to provide our clients with bulls that further their programs to suit markets and generate greater profit.

We use a combination of Australian and US genetics through our extensive AI and ET programs to improve the consistency across our herd while still believing in the investment of high quality back-up sires.

We are continually seeking to look at new genetics throughout Australia when able Chris will continue taking trips to the USA to view suitable genetics.

# DISCLAIMER AND PRIVACY INFORMATION

## Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

## Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA.

SV : the sire has been verified by DNA.

DV : the dam has been verified by DNA.

# : DNA verification has not been conducted.

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

This year's sale will feature 12 sons of Nectar. Nine sons sold last year for an average of just under \$20,000. He is breeding extremely well, excelling in structure, doing ability, gestation length and phenotype. His females have been very impressive being standouts of their drops. Nectars progeny will form a big part of our future breeding and in upcoming bull sales.

## 2021 SALE WRAP

WOW, What a day!

We would like to thank everyone that supported our sale last year. To our auctioneer Paul Dooley, the team at DCCO thank you for making the sale run smoothly. To Struan and Monika from studstock sales we can't thank you enough for doing what you do from taking photos of the bulls for the catalogue, photos on sale day along with sale day wrap. You are so professional and do an unbelievable job, we love having you guys here.

The biggest thank you of all goes to the buyers and underbidders for your continued support of our genetics and program. We were extremely grateful and humbled by last years sale results.

In 2021 we offered and sold 46 bulls to a Heart Angus record high of \$30k twice with and overall average of \$15,913.

## **Millah Murrah Rolls Royce**

'Rollsy' was purchased at the record breaking 2021 Millah Murrah sale. We purchased him for \$110,000 which at the time was the highest price paid for a yearling bull at auction. He has added length with a genuine B muscle expression, strong top line with amazing skin and soft finish. We are excitedly waiting for his first calves to hit the ground in August.

## **Peakes Bowen Black Pearl P645**

We purchased 'Peakie' at the 2020 Bowen Sale. He is a bull that ticked all the boxes for us and is reflective of what we strive to breed here at Heart Angus. His overall balance is amazing as seen in the photo. He's got a real sire presence, fantastic carcass, softness and soundness to his structure, with a really even set of EBV's which we like to have. We weaned his first batch of calves in March with the top weighted bull calf being 420kg at 8 months. They are extremely quiet, soft easy doing with growth.
