WELCOME

Welcome to our 9th On Property Bull Sale, we thank you for taking the time to look at the 64 bulls in this years lineup.

We have been blessed with an amazing season this year with the bulls going onto oats at the beginning of May. Through the summer the bulls had been running on lucerne and tropical grass with hay in with them at all times. Photos of the bulls were taken on the 8th of June with videos taken early July. Thank you studstocksales, Struan and Mon you are amazing.

We have new and exciting sires from the US head lining our sale this year. We viewed these sires on our 2022 US trip these include Sitz Resilient, 10 sons sell. Ellingson Prolific and Myers Fair-N-Square have 9 sons each and Connealy Craftsman 2. All these bull bring new genetics to our stud with Prolific and Craftsman being some of the first sons to sell in Australia.

Other feature sire lines include bulls from leading Australian stud Millah Murrah with Millah Murrah Rolls Royce R275 with a son topping our 2024 sale, 20 sons sell. Millah Murrah Stormtrooper S235 with a feature lot being Lot 3 and Millah Murrah Stormtrooper S198 with 4 sons selling. The last sire is Peakes Bowen Black Pearl P645 with 6 sons selling.

We invite inspection of our bulls at the Open Day on 26th June, or prior to the sale by private inspections.

BREEDING GOALS

Simply, our aim is to produce productive cattle to suit all markets. Having a functional cow herd base concentrating on doing ease, fertility, structural soundness and carcase to provide our clients with bulls that further their programs to suit markets and generate greater profit.

We run extensive AI and ET programs, using a combination of Australian, NZ and US genetics, with the aim to improve consistency across our herd. We also strongly believe in the investment of high quality Australian back up sires and understand the need for new genetics. We travel throughout Australia and undertake regular trips to the US to seek out and inspect and any new sires. During our most recent trips to the US in 2022 and 2024 we viewed sires and their progeny whose genetics will be seen in this and future sales.

DIRECTIONS

From Tamworth - 10km south of AELEC on New England Highway, Sandown is on your right.

From Dungowan - turn left at Dungowan Pub then right onto Duri/Dungowan Rd, at Recreational Ground follow through to New England Hwy, turn left travel for a further 2km Sandown on your right.

From South - approx. 4km north of Goonoo Goonoo Station on your left.

SALE DETAILS

Inspections

Sale bulls may be inspected by prior arrangement with the vendor. All lots will be penned for inspection at 10am on sale day. Sale will commence at 1pm.

Additional Information

A supplementary sheet will be available on the day providing weights, scrotal measurement and any additional relevant information

Fertility

All bulls have been semen tested

Registration

A card registration system will be used, please allow yourself time prior to the sale to register. Your PIC number will be required. The sale will be conducted under normal auction conditions.

Health Treatments

Bulls have been vaccinated with Pestiguard, 7in 1 and Vibrovax.

GST

All animals are sold exclusive of GST.

Rebate

2% rebate to outside agents introducing buyers in writing 24hrs prior to sale and settling on their behalf in 7 days of the date of invoice.

Phone Bidding

Mobile phone bidding can be arranged.

Auctions Plus

Our sale will be interfaced with Auctions Plus, with photos and videos of bulls available.

Insurance

It will be the responsibility of buyers to insure their bulls, there will be options on sale day.

Transport

There will be stock transport options available on the day.

Sale day Safety

All bulls have been screened for temperament however sale day places extraordinary pressure on them.

Visitors enter the cattle pens at their own risk.

No children in pens.

Taking Delivery

Upon taking delivery of your purchase/s it is important to remember that our bulls have been running in mobs since weaning. Arriving in a new environment can be quite traumatic so we recommend on arriving home you have some other cattle in the yards to ease him into his new surroundings.

Angus Australia Registration Transfer

Upon request we will conduct transfer of Ownership with Angus Australia.

Semen Rights

Heart Angus reserve to right to collect semen for in herd use from any bull listed in the catalogue. This will be at the vendors expense and the buyers convenience.

Catering

Refreshments will be available on the day, along with a complimentary BBQ lunch.

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

REFERENCE SIRES

Ellingson Prolific

New sire Ellingson Prolific was viewed by us in 2022 and again in 2024. He was one of the best young sires we've seen in years. He adds length, volume, muscle and is one of the best foot producing bulls we've used. One of his first sons to sell in the US, Boyd Bedrock sold for US\$360k. These are the first sons to sell in Australia, 9 sons sell.

Myers Fair-N-Square M39

Myers Fair-N-Square is again a bull we picked out on our 2022 and 2024 tours, when we viewed him we fell in love straight away, there's just nothing wrong with him. He's one of the best walking bulls around and his females are elite, the udder quality is amazing. His sons will add early weight in your calves plus females that you'll keep, 9 sons sell.

REFERENCE SIRES

Sitz Resilient 10208

Sitz Resilient is another new sire line, again we viewed him and his progeny on our US tours in 2022 and 2024. He is a bull that just does everything right. His progeny are long and thick with great front ends they are also free moving. I think the females are going to be something pretty special too, 10 sons sell.

Millah Murrah Rolls Royce R275

Millah Murrah Rolls Royce R275 needs no introduction here being the biggest sire group in this years sale. A son topped our sale last year, selling to Prime Angus, SA. A son also topped a sale in WA selling for \$47k. His progeny are extremely quiet and will add length, 20 sons sell.

We start this years sale with an exciting new sire line, Myers Fair-N-Square. We have inspected Fair-N-Square in the US twice now. We just love the bulls evenness in type and the females are just outstanding. Dam Abigail M32 produced our equal top priced bull in our 2021 sale selling to renowned breeders Terry and Peter Hanigan. He is a high growth bull that will breed some beautiful females.

Another new sire group to our sale this year is Ellingson Prolific and we absolutely love what he's doing for us, so much so that we have used him again this year. V62 is a great example of why we love this sire. He's long with extra muscle and great feet and legs, a super quiet bull. He definitely ticks a lot of boxes. Suitable for Heifers.

V39 was definitely a fan favourite at the World Expo in Tamworth this year. His sire S235 is another new sire to the line up however due to injury we only have a limited number of progeny. Dad (Chris) loves this fellow and we probably would've keep him if he wasn't an APR bull. V39 is out of a first calf Nectar daughter that is breeding extremely well with a cracking Craftsman heifer calf on her now. A very even data set, low birth, high growth and great structure. One of the sale highlights. Suitable for Heifers.

Sitz Resilient is also a new sire line. V26 has been one of the heaviest bulls in this group, weaning at 443kg, out of a first calf heifer. V26 is a low birth weight bull that will put weight into your calves from the start. I love how thick he is and stands on great feet. The females from Sitz Resilient are going to be something special. Suitable for Heifers.

V25 has great phenotype with the added bonus of 5.4 for IMF. V25 is backed by a tremendous cow with his Grand Dam K36. K36 has hit the AI 7/9 calves and conceived to AI again this year as an 11yo, while weaning a 447kg bull calf- she's a special cow. V25 will hit a lot of different markets. Suitable for Heifers.

Love the growth for age in this bull. He was one of the heaviest bulls at weaning. Out of the great Dolly Family with his Grand Dam F8 still active at 15.

Another large framed Fair-N-Square son here. Dam N93 has been a very consistent breeder with two bulls selling at auction for an \$11k average and one daughter retained which has Lot 26 in this sale. Her bull calf at side is by Heart Nectar S83, our 2023 sale topper, he is a cracker too. V43 has a very neat data set. Suitable for Heifers.

If you want to add a bit of frame to your herd this bull is your guy. We used Fair-N-Square over our large framed cows to add a bit of body and he's done that. One of the heaviest bulls in the Autumn drop. I'd love to see him as a 3 year old, he'll look impressive.

V78 catches your eye everytime you see him, so wide through his back end and I just love how he walks. Our neighbour Clive Barton picked him out as a 6 month old calf, saying 'if I was to buy one, V78 is him'. He's backed by the great Dolly Family with F8 still active in our herd at 15.

V88 is as thick and dense as we can make them. He is the same cross as Lot 17 and it's pretty hard to split them. We love what our Nectar daughters are producing for us here. He is probably one of the best footed bulls in the sale.

Could be one of the first Craftsman calves to sell in Australia. We've used Craftsman heavily with a big run of bulls for next year. Out of a mod-est frame cow we purchased from the Millah Murrah female sale. Lot 55 is identical breeding to this fellow. Will add length and fats. Suitable for Heifers.

Powerful with grunt is the only way to describe U125. He was an early standout that just loves showing himself off. His Dam was purchased from the Peake Family at Barraba, she had a bull sell in last years sale and U125 will definitely make you look twice.

I think this bull is something pretty special. Again out of a beautiful 11yo Confidence 0100 cow. She's had two sons sell for a \$16k average. What I think is special about him is that he's been the heaviest bull in his group everytime we have weighed them but in a moderate frame, the job he fits is endless. He'll breed heavy weaners and feeder steers. With Fair-N-Square his females will just be great. Like Lot 3 if he wasn't an APR bull we would have considered keeping him. Suitable for Heifers.

We start a new pen with U101, with all these bulls having a bit extra frame and power. Dam K227 has been a solid breeder for us and also prior at Kennys Creek. She has only breed bulls with eight of them making sale grade, a bull for next year too. U101 is a very deep sided soft bull with extra frame. Suitable for Heifers.

A super quiet high growth bull here. The Nectar x Confidence 0100 has worked so well, breeding our 2023 sale topper Nectar S83 from the same cross.

The calving ease and birth on V12 is incredible, the calves will definitely come out small and easy just what you want from a heifer bull. Then big positive fats and high IMF open up a few different markets at the other end. Suitable for Heifers.

FUTURE SIRES

We are super excited about some of these new sires lines. Firstly Connealy Craftsman, with two bulls in this years sale, he'll have one of the biggest drafts in 2026 sale. We used him over a lot of Nectar daughters and its proving a very successful joining and there'll be few feature bulls by him next year.

We were underbidders on the next two bulls but we just had to use them. The first one is Millah Murrah Santiago S304, we just loved this bull at the sale and his pedigree is second to none. His calves look super impressive.

The second bull is Dunoon Data Plus S603, we rate Dunoon up there as one of the best studs around. Data Plus is a bit of an outcross pedigree for us we've and used him over heifers and the calves are beautys.

The last of the future sires is Heart Nectar S83, our 2023 sale topper, selling to great friends Springwaters Angus, Boorowa. After being the under bidders on Santiago, Data Plus and also Millah Murrah Trigger we bought a share back and wow his first calves are something special, he's a chip off the old block. We've used him extremely heavy in our 2025 joinings and we believe he is the next step in the Nectar line. We invite anyone to come and see him.

Connealy Craftsman

Millah Murrah Santiago S304

Dunoon Data Plus S603

Heart Nectar S83

HEART ANGUS *Sale Day* 2024

HEART ANGUS

We would like to thank family and friends who help to make our lives easier during sale day.
