WELCOME

We would like to welcome you to our Inaugural On Property Female and Genetics Sale. We are very excited about giving people the opportunity to see/buy the very best of the new genetics in our program. We believe this draft of heifers are something special that bring the newest genetics, with many being the first progeny of their sires to be sold in Australia.

We were blessed with a massive spring and early summer. Since being weaned in late October the heifers had about a month on a winter wheat crop then being rotated around lucerne paddocks until late February (when it started to get dry), since then they have been on lucerne and wheaten hay with dry lick blocks.

We are super excited about the sires of these heifers with nearly all being new this year. We inspect every sire we use with consistent trips to the US and around Australia. We believe these could be the first daughters to sell in Australia by Millah Murrah Santiago S304, Dunoon Data Plus S603, Connealy Craftsman, Hart Network, Millah Murrah Rolls Royce R275, Heart Nectar S83 and Dunoon T024.

Photos and videos were taken early March, thank you Struan and Mon from studstocksale you are amazing.

We invite inspection on 14th and 15th April or by arrangement with Chris or Jye.

BREEDING GOALS

Simply, our aim is to produce productive cattle to suit all markets. Having a functional cow herd base concentrating on doing ease, fertility, structural soundness and carcase to provide our clients with cattle that further their programs to suit markets and generate greater profit.

We run extensive AI and ET programs, using a combination of Australian, NZ and US genetics, with the aim to improve consistency across our herd. We also strongly believe in the investment of high quality Australian back up sires and understand the need for new genetics. We travel throughout Australia and undertake regular trips to the US to seek out and inspect any new sires.

SALE DETAILS

INSPECTIONS

Heifers will be penned for inspection from 9am on sale day and also Tuesday 14th April 10am-5pm, Wednesday 15th April 2pm-5pm Or at other times by appointment.

ADDITIONAL INFORMATION

Supplementary Sheet will be provided if required prior to the sale.

FERTILITY-

VENDORS GUARANTEE

- All females are sold unjoined and have undergone a vet check for breeding soundness, completed by Piper Street Veterinary Clinic, Tamworth.
- All females are warranted to be fertile for natural service for 8 months from date of sale.
- A refund will be provided for any fertility issues that arise post sale where a veterinarian report is provided confirming the issue is unrelated to illness or injury and no embryo transfer procedure was conducted.

DNA GENOMIC TESTING GUIDE

All lots are parent or sire verified and have had genomics included into TACE.

REGISTRATION

A card registration system will be used, please allow yourself time prior to the sale to register. Your PIC number will be required. The sale will be conducted under normal auction conditions.

HEALTH TREATMENTS

Tested free from Pesti-virus

GST

All animals are sold exclusive of GST.

Rebate

2% rebate to outside agents introducing buyers in writing 24hrs prior to sale and settling on their behalf in 7 days of the date of invoice.

PHONE BIDDING

Mobile phone bidding can be arranged.

AUCTIONS PLUS

Our sale will be interfaced with Auctions Plus, with photos and videos available

INSURANCE

It is the responsibility of the purchaser to insure their purchase. Options will be available on the day.

TRANSPORT

There will be stock transport options available on the day.

SALE DAY SAFETY

All heifers have been screened for temperament however sale day places extraordinary pressure on them.

Visitors enter the cattle pens at their own risk.

No children in pens.

ANGUS AUSTRALIA REGISTRATION TRANSFER

Upon request we will conduct transfer of Ownership with Angus Australia.

CATERING

Refreshments will be available on the day along with a complimentary lunch

REFERENCE SIRE

MILLAH MURRAH SANTIAGO S304

Santiago is the equal 3rd highest selling bull in Millah Murrah history for 200K. We absolutely loved him at the sale and we were underbidders on him in a partnership. He's a bull we have used heavily in our AI & ET programs in the last few years and are super excited about his future going forward. Santiago has one of the best cow making pedigrees we have seen and that is a big reason why we have used him, the daughters of his in this sale are top end females.

15 daughters sell.

DUNOON DATA PLUS S603

Data Plus was selected by renowned cattleman Spry's & Cottage Creek Angus for 125k. Again we were the underbidders on this great young sire. He's a bit of an outcross sire for us but has blended so well with our cow herd, with all the heifer in this sale out of first calvers. There's a lot to like about his progeny in this sale with some feature lots and his bulls will feature heavily in the bull sale.

8 daughters sell.

HEART NECTAR S83

Hearty Arty as he is known, was the feature bull in our 2023 sale selling for a stud record of 65k to great friends Dane & Lisa Rowley of Springwater Angus, Boorowa. He is a combination of the best two animals we have ever bought Millah Murrah Nectar N334 & Millah Murrah Flower E60. We have used him extremely heavily, expecting 55 calves from him this year. We are really excited with what's to come with S83.

6 daughters sell.

CONNEALY CRAFTSMAN

We have now inspected Craftsman twice and he's a bull we have loved both times. Being the \$500k record setting bull in Connealys history and the number 1 bull for registrations in '24 & '25 in the US. Only a small draft of females in the sale but a top class at that and we're really excited about the bulls too, their seriously good cattle.

5 daughters sell.

REFERENCE SIRES

HART NETWORK

After inspecting him in 2024, we selected Network to use over a few of our bigger framed females and he's done exactly what we thought he would do. He's Dam Hart Whitney 9518 was a big reason we used him. When we saw her in 2024 she is a no holes type of cow and has an amazing record at the Hart bull and female sales. We really like the Network daughters.

8 daughters sell.

MILLAH MURRAH NECTAR N334

Anyone that knows our program knows what Nectar has done for us with only 1 direct daughter in the sale draft. 48% of the offering have him in their pedigree. There is so much to like about him, we could talk about him for hours. His offspring topped our bull sale 3 years in a row, as well as topping a number of well renowned studs in NSW, SA, WA and even New Zealand. A true example of a bull that ticks all the boxes. **1 daughter sells – 48% with him in their pedigree.**

MILLAH MURRAH ROLLS ROYCE R275

Rollsy was our selection from the record breaking Millah Murrah 2021 bull sale for 110k with semen right selling to WA & NZ after the sale. He's done everything we thought he would do, topping our last 2 bull sales. With his first daughters in production, their what modern angus breeders love.

5 daughters sell

PEAKES BOWEN BLACK PEARL P645

One of the most powerful bulls, purchased for 28k that we have bought. Peakey is a bull that's really starting to come into his own, with his daughters. The first and second calves by him are great - larger framed and are just doing a great job on their calves. Just love what he is doing.

3 daughters sell.

DUNOON T024

We were looking to bring some Dunoon Prime Minister blood into the herd, so we bought T024. The calves are just incredible, with Lot 1 being a feature.

3 daughters sell.

A fitting way to start off our first ever female sale. W5 is backed by a proven pedigree through Nectar N334 and Prime Minister. You'll hear us reference to Nectar a lot through this draft, with him being in nearly half the drafts pedigrees. His offspring keep getting better and better. A beautifully made female that will add value to any breeding program.

W35 is the first of the Flower family to come forward. Her GGD Flower E60, is held in very high regard as the best ever female that we have owned and she will be mentioned numerous times throughout this draft. E60 is also the GD of Heart Nectar S83 our record priced bull, selling to Springwater Angus, Boorowa. We love what MM Santiago S304 is doing here, the cross over the Nectar cows is something we're really excited about. With a pedigree like that, W35 is a heifer you can buy with confidence.

The first of a very exciting draft of Dunoon Data Plus females and we'd say the first females to be offered by him in Australia. From another one of our MM Flower families with her GGD Flower J196 having the top price bull in our 2025 sale and being a full sister to AI sire MM Jupiter J194 owned by Banquet Angus, VIC. We absolutely love this heifer; she is so feminine and soft. She may be one of the highlights of the sale.

A typical Craftsman female, she will for surely catch your eye in the display pens. Another Nectar GD, out of a cow family we purchased from Kennys Creek back in 2011, this family has been ultra-consistent for us. W74 has excellent structure, reflecting the reliability of her pedigree.

W95 is the first of the Nectar S83 progeny to sell and they are everything and more of what we expected him to breed. This Champagne cow family never misses. W95 is the type of female that will be in your program for a long time and will work well with any type of bull you decide to use over her.

We really like the cross between Data Plus x Nectar N334, it's the perfect mix of phenotype, performance and structure. U14 is a proper nicely made Nectar cow with W25 being her first calf. W25 has a great data set exactly what the modern Angus breeder is looking for. She has a lot of upsides and a big future ahead of her.

The first of the Dolly cow family to come forward today, W2 combines two of our best female families in Flower and Dolly. We kept F8 at 15 years old just for this heifer by S83 and she is as impressive as we thought she'd be. W2 is one for the true cattleman and has longevity in her pedigree.

One of only two ET calves in the draft. A Craftsman heifer out of Flower K15, the Dam of our record price bull and herd sire Heart Nectar S83. That also means she has Flower E60 as her GD, the best female we have ever owned. She's a larger framed heifer with a heap of softness. Anyone whose superstitious like us, W83 S83 she could be a good one.

A beautifully made Nectar S83 daughter. Her GS MM Katich K20 was a full brother to the record priced bull of his time MM Kingdom K35, who went on to breed extremely well. The youngest heifer in this first pen. She's very quiet and has great structure, in the top 1%. She has a bright future.

W87 is a heifer we've got a lot of time for. Her dam S40 is among one of our favourite cows on the place. She brings a little different breeding to the table having Rennylea Prospect P550 as her GS, we only used about 15 straws of him and the females he sired have been really impressive. She brings extra length and great structure.

We start a run of some very special females now. W75 could be one of the best in the sale. Her GD Dolly H2 was the second calf ever born here at Heart Angus and she went on to breed 2 sale topping bulls with her first 2 calves. We truly believe that W75 would have been on her way to be a donor here. A definite highlight in the sale.

The first of the Hart Network progeny to come forward and what an impressive line they are. W18 would have to be one of the thickest heifers in the sale and that's backed by her EMA of +15.2, MASSIVE! She's out of another impressive Nectar N334 cow from a cow family that's had sale toppers. A very good one here.

W10 starts a run of very special MM Santiago S304 daughters that we'd say are a chance of being future donors, in our eyes. W10 being fully MM breeding is something pretty cool in itself. Her GD Abigail M284 is a full sister to the Dam of the up-and-coming super sire MM Trigger T308, then you add Klooney K42, Reality 839 and Hector H249 and she's stacked full of amazing female breeding bulls, it's a pedigree that you just can't go wrong with.

Now W57 is just one of those heifers that we love to breed and is really hard to sell. She is a half-sister to Heart Nectar S83 that you've seen in the catalogue and a GD of Flower E60 the best cow we've ever owned. We can't speak highly enough about this heifer and her pedigree, it just screams consistency, performance and longevity. One not to be missed.

Another proper good Santiago S304 daughter here. There's a fair bit of breeding behind W22, her GD M32 has had a sale topper by Nectar that we used in the stud and her dam had lot 2 last years bull sale. You'll love the softness of her, she's been one of the standouts all the way through.

W54 would have to be out of one of the nicest Nectar N334 cows we have, she is amazing to look at. We really think the S304 X N334 is going to work well. We mated all our N334 daughters to Santiago and they have just calved. We love this heifer and she's only getting better.

If there's one heifer in this sale that's going to catch your eye from across the paddock, it's W62. She has so much presence and we really like how W62 walks, she just glides across the ground. From a small cow family for us, but one we love, her GD S40 (Dam of lot 13) is one of our favourite cows. One of the better data sets in the sale.

Born on the same day as the last heifer. W63 combines the best of both worlds, she is one of the best made females with an absolutely cracking data set. We don't talk too much about data here but hers is something else for us. Then you look at her pedigree Nectar N334, Flower K15 (Dam of Nectar S83), Flower E60. W63 is a gem in the middle of the sale.

The only direct Nectar N334 daughter in the sale. W20 full sister Ann S70 would be up there in the best few cows on the place and will be joining the donor team this year. Her dam Ann M99 was the top priced PTIC heifer from the Wattletop stage 2 sale and is one of our top donors. There's a heap of breeding behind W20.

The Network has worked so well over many of cows but especially the larger frame ones, he did exactly what we thought he would. A massive EMA on W67 and you can really see that in her too.

This is a super sweat heifer that we have a lot of time for. We wouldn't look too much into her growth figures, her pedigree has a lot of size to it. She'll defiantly breed above that figure. She's super square from behind and very easy doing.

A super soft easy doing Data Plus female here. She's got a lot of good MM blood on the bottom side of her page, Flower E60 plus Heart LD Capitalist P7, that sold to Urban Angus as our sale topper in 2019. He was in utero when we purchased his dam from the MM female sale in 2017. Great figures, probably one of the highest IMF in the draft.

We absolutely love this young S83 daughter, she's so soft and has so much presence. She just says look at me! She's from what we consider our second-best cow family. W105 is a real gem late in the sale.

The first of the Bara cow family to come through, some of our very best breeding cows are from this family. The Moe x Exclusive cross is working so well here, always being up the top of the bull catalogue. She's a super thick, soft easy doing heifer that had she been a month older would have been a few pens forward.

This is a very special heifer for so late in the draft. Part of the reason we paid \$100k for MM Flower R95 was she had a cracking little heifer calf at side and she is this girls Dam. She's not going to be big but god she still catches your eye. Once you get a few calves out of her she would be good enough to join anyone's donor team, just like her Dam will for us. And let's add a massive +19.8 for EMA. A hidden gem.

The last of the Rolls Royce R275 daughter to come forward out of a cow with a lot of breeding behind her. W123 GD Flower Q76 is a full sister to our sire Heart Nectar S83, whose done such a good job in this sale. That also means she goes back to Flower E60. She's only young, a lot of upsides in this heifer.

Millah Murrah Flower R95 Dam Lot 26

What a female here. R95 would have to be up there with one of the best females with embryo's for sale anywhere in the country. A daughter of the famous donor at Millah Murrah, Flower N30 which a half interest in embryo's sold for 140k at the latest MM sale. Her sire MM Paratrooper P15 would have to be up there with one of the most influential sire's of the Angus breed ever. The joining's of Millah Murrah Nectar N334 & Millah Murrah Trigger T308 are super exciting, they combine some exciting new and proven genetics that you just know will breed you some amazing cattle. This is the first time we have offered any embryo's out of R95. Opportunity not to be missed! Sold as per embryo.

Heart Flower V141

V141 brings some leading new genetics to the embryo part of this sale. Being a daughter of Flower R95 by the new and upcoming sire Connealy Craftsman who's early progeny are something special especially on the female side. Again we have mixed her with Millah Murrah Nectar N334 & Millah Murrah Trigger T308 and we think they will cross with her so well. When you take in her pedigree, phenotype and the fact that her figures are unreal, we think she is pretty special. Sold as per embryo.

Heart Flower V169

V169 was just that good a heifer from a young age we had to put some of her embryo's in this sale. Being a Taimate Roy R38 Daughter again out of Flower R95, the phenotype on V169 is exactly what we think the modern Angus breeder should be trying to breed. With a full brother of hers selling for 44k at the 2025 MM sale to Rosemount Angus and 3 full brothers set to highlight our bull sale later this year. Sold per embryo.

Millah Murrah Reactor R53

Angus Australia Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

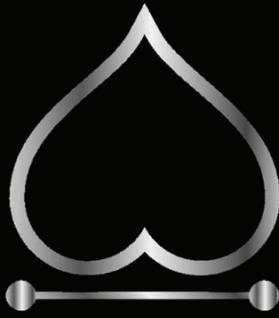

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

Taimate Roy R38

Hart Network

Millah Murrah Rolls Royce R275

Peakes Black Pearl P645

Dunoon T024

Our Annual Bull Sale day will be held on 28th July this year.

We are very excited about this draft of bulls, they could be up there with the best we have put forward. Being the brothers of this draft of heifers, the bloodlines are very similar.

In the 18 month old bulls there are some standouts by Craftsman and Santiago and a couple of their sons could be up there with the best bulls we've ever bred for phenotype and data. In the two year-old bulls we have an understanding draft of Craftsman and Roy sons with three R95 x Roy sons headlining the offering. The bulls are looking really well right now and we hope the season keeps with us so we can present this great draft of bulls off oats.

Hope to see you all then.

HEART ANGUS

We would like to thank family and friends who help to make our lives easier during sale day.
