# WELCOME

Welcome to our 10th On Property Bull Sale, we thank you for taking the time to look at the 60 bulls in this years lineup.

We were blessed with a massive spring and early summer. They were rotated around lucerne and tropical grass paddocks until late February (when it started to get dry), since then they have been on lucerne and wheaten hay with dry lick blocks until early April for the younger bulls and late April for older bulls when we started to supplement them with Riddleys weaner pellets with daily feedings.

Photos and videos of the bulls were taken on the 18th June. Thank you Struan and Mon of studstocksales, we always love this time of year.

We are super excited about the sires of this draft of bulls with nearly all being new this year. We inspect every sire we use with consistent trips to the US and around Australia. Millah Murrah Santiago S304 , Dunoon Data Plus S603, Connealy Craftsman, Taimate Roy, Ellingson Prolific, Hart Network, Millah Murrah Rolls Royce R275, Heart Nectar S83 and Dunoon T024.

## BREEDING GOALS

Simply, our aim is to produce productive cattle to suit all markets. Having a functional cow herd base concentrating on doing ease, fertility, structural soundness as well as carcase, to provide our clients with bulls that further their programs to suit markets and generate greater profit.

We run extensive AI and ET programs, using a combination of Australian, NZ and US genetics, with the aim to improve consistency across our herd. We strongly believe in the investment of high-quality Australian back up sires and understand the need for new genetics. We travel throughout Australia and undertake regular trips to the US to seek out and inspect any new sires. During our most recent trips to the US in 2022 and 2024 we viewed sires and their progeny whose genetics will be seen in this and future sales.

## DIRECTIONS

From Tamworth - 10km south of AELEC on New England Highway, Sandown is on your right.

From Dungowan - turn left at Dungowan Pub then right onto Duri/Dungowan Rd, at Recreational Ground follow through to New England Hwy, turn left travel for a further 2km Sandown on your right.

From South - approx. 4km north of Goonoo Goonoo Station on your left.

## SALE DETAILS

### Inspections

Sale bulls may be inspected by prior arrangement with the vendor. All lots will be penned for inspection at 10am on sale day. Sale will commence at 1pm.

### Additional Information

A supplementary sheet will be available on the day providing weights, scrotal measurement and any additional relevant information

### Fertility

All bulls have been semen tested

### Registration

A card registration system will be used, please allow yourself time prior to the sale to register. Your PIC number will be required. The sale will be conducted under normal auction conditions.

### Health Treatments

All bulls have been vaccinated with Pestiguard, 7 in 1 and Vibrovax in June. All bulls were drenched with Virbac Cydectin Platinum and a lice treatment in June.

### GST

All animals are sold exclusive of GST.

### Rebate

2% rebate to outside agents introducing buyers in writing 24hrs prior to sale and settling on their behalf in 7 days of the date of invoice.

### Phone Bidding

Mobile phone bidding can be arranged.

### Auctions Plus

Our sale will be interfaced with Auctions Plus, with photos and videos of bulls available.

### Insurance

It will be the responsibility of buyers to insure their bulls, there will be options on sale day.

### Transport

There will be stock transport options available on the day.

### Sale day Safety

All bulls have been screened for temperament however sale day places extraordinary pressure on them.

Visitors enter the cattle pens at their own risk.

No children in pens.

### Taking Delivery

Upon taking delivery of your purchase/s it is important to remember that our bulls have been running in mobs since weaning. Arriving in a new environment can be quite traumatic so we recommend on arriving home you have some other cattle in the yards to ease him into his new surroundings.

### Angus Australia Registration Transfer

Upon request we will conduct transfer of Ownership with Angus Australia.

### Semen Rights

Heart Angus reserve to right to collect semen for in herd use from any bull listed in the catalogue. This will be at the vendors expense and the buyers convenience.

### Catering

Refreshments will be available on the day, along with a complimentary BBQ lunch.

# Angus Australia Disclaimer and Privacy Information

## Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

## Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

## Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

## Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents \_\_\_\_\_

from member \_\_\_\_\_ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: \_\_\_\_\_ Signature: \_\_\_\_\_

Date: \_\_\_\_\_

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

office@angusaustralia.com.au | 02 6773 4600 | Angus Australia Locked Bag 11, Armidale NSW 2350

# REFERENCE SIRES

## MILLAH MURRAH SANTIAGO S304

Santiago is the equal 3rd highest selling bull in Millah Murrah history for \$200K. We absolutely loved him at the sale and we were underbidders on him in a partnership. He's a bull we have used heavily in our AI & ET programs in the last few years and are super excited about his future going forward. Santiago has one of the best cow making pedigrees we have seen and that is a big reason why we have used him, the sons of his in this sale are top end bulls.

**14 sons sell.**

## HEART NECTAR S83

Hearty Artie as he is known, was our feature bull in our 2023 sale, selling for a stud record of \$65k to great friends Dane & Lisa Rowley of Springwaters Angus, Boorowa. He is a combination of the best two animals we have ever bought Millah Murrah Nectar N334 & Millah Murrah Flower E60. We have used him extremely heavily with 55 calves being born in this years Autumn calving. We are really excited in what's to come with S83.

**5 sons sell.**

## DUNOON DATA PLUS S603

Data Plus was purchased by Spry's & Cottage Creek Angus for \$125k. Again we were the underbidders on this great young sire. He's a bit of an outcross sire for us but has blended so well with our cow herd, with heifers topping at \$22k at our recent Female sale.

**6 sons sell.**

## CONNELY CRAFTSMAN

We have now inspected Craftsman twice and he's a bull we have loved both times. Being the \$500,000 record setting bull in Connealys history and the number 1 bull for registrations in '24 & '25 in the US. With the second largest draft in the sale there are some seriously good bulls in the sale.

**9 sons sell.**

# REFERENCE SIRES

## HART NETWORK

After inspecting him in 2024, we selected Network to use over a few of our bigger framed females and he's done exactly what we thought he would do. He's Dam Hart Whitney 9518 was a big reason why we used him. When we saw her in 2024 she is a no holes type of cow and has an amazing record at the Hart bull and female sales.

**3 sons sell.**

## MILLAH MURRAH ROLLS ROYCE R275

Rollsy was our selection from the record breaking Millah Murrah 2021 bull sale for \$110k with semen right selling to WA & NZ after the sale. He's done everything we thought he would do, topping our last 2 bull sales. With his first daughters in production, they're what modern angus breeders love.

**8 sons sell.**

## TAIMATE ROY

With only two sons, full brothers by Flower R95 in this sale, we were super excited to bring some NZ blood into our herd. Roys Dam is considered the best cow in Taimates herd.

**2 sons sell.**

## ELLINGSON PROLIFIC

Ellingson Prolific was viewed by us in 2022 and again in 2024. He was one of the best young sires we've seen in years. He adds length, volume, muscle and is one of the best foot producing bulls we've used. One of his first sons to sell in the US, Boyd Bedrock sold for US\$360k. They were very well received in our bull sale last year and more to come next year.

**1 son sells.**

## DUNOON T024

We were looking to bring some Dunoon Prime Minister blood into the herd so we bought T024. The calves are just incredible.

**8 sons sell.**

What a great way the start off the 2026 sale. Right from a very young age W107 has always been a bull that catches your eye. His sire R275 has bred very well for us with over 40 bulls selling in our last 2 sale, to avg over \$10k, with sale toppers in both sales too! I love what the Moe M6 cows are doing, I'll mention him a lot through the start of the catalogue. W107 is a good heifer bull option with amazing growth, IMF and as quiet as you can get. Suitable for heifers.

W111 is the same cross as the previous bull and they are peas in a pod, they would work so well as joining partners. He's a big free moving fella that will add length and bone to his progeny. I think he'll be a very impressive bull as a 3 year old.

We've loved this bull all the way through. We all have our favourites and this guy is mine. Being by the \$500,000 Connealy Craftsman out of one of the best cow making bulls in Nectar N334, this is exactly why we were so keen on this cross and boy hasn't it worked out. W33 Dam Bara T16 is a maternal sister to the dam of the \$34k heifer that topped our recent female sale selling to Banquet Angus VIC, one of the Australia's leading Angus studs. W33 has a very neat data set on him exactly what we are trying to breed. The more you look into him the more you'll like him. Top sire. Suitable for heifers.

The first of a super exciting draft of MM Santiago bulls in the sale. W78 has been in the mix of our favourite bulls and when you see him you'll see why. The extra bone, the power and I think the best part of him is the females behind him. His Dam Dolly T24 is one of the best Moe M6 cows we have, and GD Dolly R27 is up there with one of the best Nectar N334 cows. Then you add in the MM Santiago side with Reality, MM Klooney and MM Doc, you might see the best of him when his daughters start coming through. Then look at the data, it's pretty nice. Top sire. Suitable for heifers.

W77 is a bull we have a lot of time for, he's so soft and has so much meat. Dam M166 is an ultra consistent cow that just always breeds a good calf, her V first calf daughter by Prolific is a solid young cow. You'll have a lot of ticks on W77.

Another great MM Santiago bull here. There's definitely some power in his calves. His Dam Flower S32 is a never miss Exclusive daughter that just keeps breeding cracking calves. I love the structure and how easy doing W24 is. He's one to look out for.

There's some power in W38. He's been an eye catcher all the way through. Weaning well over 400kg, he'll add growth and carcass with a high IMF but still keeps the maternal side strong with outstanding milk figures. His Dam Champagne T41 had a great bull in last years sale selling \$10k.

The first son of a bull we bought from one of the leading studs in Australia, Dunoon. We bought T024 to bring in some Dunoon Prime Minister blood and boy hasn't he done a tremendous job especially with majority being from first calving heifers. W72 is backed by the best cow we've ever bought in MM Flower E60. He's a bull that will catch your eye in the pen.

The first of the Heart Nectar S83 progeny to come forward. S83 is our record bull selling for \$65k to Springwaters Angus. W9 is a big powerful bull with so much body. Look past the birthweight on him, we used S83 over heifers last year with every one born unassisted. W9 is a free moving, good cow bull.

Out of a first calf heifer and the first bull to come forward by US sire Hart Network, which were sort after in our Female Sale back in April, selling to \$18k. Again look past the birthweight (actual birth 38kg) and look at all the benefits he will bring you, high growth, high carcass, terrific structure and he goes back to the great Flower E60 cow.

I think when you have high growth cattle that have big weaning weights the genomics automatically pushes their birthweight really high and again that's what's happened here. W93 has tremendous early growth and will breed some great calves.

W96 is up there with the best bulls in the draft. Again out of a first calf Nectar heifer, by the T024 Prime Minister son being some of Australia's best sires together. Again look past the birth weight (actual birth 38KG) and look at the high growth, the big scrotal, the huge EMA, the great structure and you'll see why we think so highly of him. One not to be missed!

You've gotta love the thickness, do ability and sleek skin on W49. He's a perfect option to use over heifers and will breed some great weaners to hit those early weaner sales. Suitable for heifers.

W70 would have to be up there with one of the squarest topped bulls in the draft. I love the Santiago x Nectar, it's worked so well, with a lot of calves for next year being that exact same cross. With cow numbers so low its bulls like W70 that will breed some great females.

Talk about easy doing, everyone loves a bull that looks good all year round. I think W34 would work amazingly in a cross breeding program especially over Simmental or Limo cows. He goes back to a beautiful old MM cow E207 who just always breeds a great calf, with so many daughters still in the herd. Suitable for heifers.

Another really stylish Santiago son here. So much length and body, he's one that always catches your eye in the paddock. When you add a big EMA and high yield he becomes a very smart bull.

Here's a very smart bull by T024 again out of a very nice Nectar daughter. That cross has worked so well for us. He's a bull with high growth, massive fats, huge EMA, terrific structure and is super quiet. Defiantly a bull that ticks so many boxes. Suitable for heifers.

Gotta love the extra bone and flank on this fella. He's out of a really nice MM cow we bought at their last female sale which is closely related to the great sire MM Trigger T308. W101 would have to be one of the quietest bulls in the draft and has perfect feet. Suitable for heifers.

Unfortunately we lost W69s Dam when he was about 5 months old and he robbed his way through to weaning. His Dam Flower S82 was one of our favourite Nectar daughters and we were going to put her into our donor team this year, it always happens to the good ones! Then you look at W69 GD Flower P89 who is currently a donor with a lot of calves hitting the ground this year and GGD Flower E60 - the best cow we have ever owned. So many stella cows in his pedigree. He comes with a very handy data set too. One for the guys wanting to breed replacement females. Top sire. Suitable for heifers.

A super thick topped bull, you could near eat off his back. W65's Dam Flower U3 is a maternal sister to Nectar S83, which has some great bulls in this sale. There's so much to like about his maternal side, then you add a bit of extra data from Data Plus and he's a pretty smart bull.

24

W50 is very similar breeding to Lot 21 with a lot of the same great cows behind including Flower E60. Then you look at the data on him and wow he becomes something special. The carcass data is amazing and perfect feet all in a safe heifer bull. Suitable for heifers.

V175 is a pretty special animal for us here at Heart Angus. He's the first bull, out of the stella cow MM Flower R95 who we bought for \$100k, to sell here. Her embryos sold to \$3k at our recent Female Sale and one Granddaughter sold for \$18k, with a lot of good judges rating her very highly. Then the sire Taimate Roy, one of the best sires to come out NZ in recent years. He's packed full of breeding this fella. A full brother to V175 sold for \$44k at last years MM sale to Rosemount Angus. V175 is a bull we thought very hard about keeping but you can't keep them all. Top sire. Suitable for well grown heifers.

V157 brings some power to the 2yr old draft of the sale. He's out of one of the most consistent cows we have on the farm still going at 12. Again, look past the high birthweight on him (actual birth 38 kg) and look at all the other benefits he brings you like high growth, terrific feet and legs along with the maternal strength of a great cow. I've really liked this bull all the way through.

The only Prolific son in the sale and a very handy one at that. The Prolific's in last year sale were really well received so much so we went back and used him, with more in next years sale. V142 is a very tidy bull that has always been one of the standouts. You get low birth, high growth and amazing feet. Suitable for heifers.

V140 is definitely a bull that will catch your eye in the pens. He will add muscle and thickness to all his calves. Massive carcass bull too with perfect feet again. Suitable for heifers.

Youngest of the older bulls but one of the easiest doing bulls in the draft. Again going back to the great Flower E60 cow so you know the maternal side is going to be amazing.

A heifer bull specialist here by Data Plus. Love the length and front end on W21. Plus you get the added bonus of great milk and high fats. Suitable for heifers.

Again a great heifer bull option but with a bit of extra growth too. W44s Dam Flower U83 has a cracking Prolific bull on her this year. Then you add Flower E60 in his pedigree so the maternal side of him is elite. Suitable for heifers.

W53 is right from the pointy end of our breeding program here. Being a maternal brother to Nectar S83 and a GS of Flower E60, there's a lot to like about him. He's a tremendous heifer bull that will add a bit more growth and breed great females. Suitable for heifers.

W132 is a very smart package of bull. Youngest bull in the draft, if he was a month or two older I think he'd definitely be up in the first couple of pens. His Dam Ann S70 is one of my favourite Nectar cows, I could speak about her all day long. He's one for the real cattleman.

I really like the S83 cattle, he's going to play a massive part in next years sale. W97 breeding is very similar to the last lot, so much quality. W97 is his Dams 5th bull to make the sale, with her only having one daughter, which had a star lot in our recent female sale selling for \$20k. One not to be missed. Suitable for heifers.

W98 is a bull that is really coming to it of late. He got picked on a little bit when it got really dry here. He's out of the lovely old Dream Y301 cow that just keeps doing a job.

Last bull of the sale, again was picked on so has been drafted out of the main mob of young bulls. The Craftsman x Nectar again working so well. He also goes back to the great Flower E60.

# 10 SALES, WOW!

Sale days and open days don't just happen without help and we have had so many helpers over the years. Firstly, to our mums who have always cooked delicious goodies that have been enjoyed by many. Dads who have done whatever was required of them. Many many friends who have manned BBQs, served nibbles and drinks, helped out in the back yards, setup and cleaned up. Those who have been here to support and celebrate with us, we have had many fun nights. We thank you all most sincerely.

Most importantly to our children, there is so much more to these days than the actual day of, only you really know what it takes to make these days so successful and fun. The day has become as much about family and we love having you all here to enjoy these times. Cheers to many more.

## FUTURE SIRES

### **Booroomooka Utah U670 (NGM23U670)**

Purchased for \$50k as the second top priced bull in the 2025 Booroomooka sale. Everyone that sees this bull absolutely loves him. Near perfect structure, as thick as they come and a true sire outlook. We have flushed and used him very heavily in our Autumn AI and as a back-up bull. We are super excited about this guy. Semen available through Jack Laurie at Breeders Genetics.

### **Millah Murrah Vin Diesel V330 (NMM24V330)**

Bought in partnership with Knowla Livestock and Urban Angus for \$120k. V330 is such an impressive young sire. He is so long and just glides across the ground. One of those bulls that there are no faults with, good feet, tight underneath, strong backline, great presence and quiet. He has been used heavily in our AI and as a back-up bull. Semen available privately.

### **Millah Murrah Trigger T308**

What a great young sire here. We were the underbidders on Trigger in a partnership but we just loved him so much we used him by AI. We have really backed Trigger as a sire with the purchase of MM Vin Diesel. From all reports he has grown out extremely well showing all the things we loved about him as a yearling. Exciting times ahead with Trigger.

# FEMALE SALE WRAP

We would like to sincerely thank everyone who supported our Inaugural Female Sale in April this year.

We were blown away by the incredible support received from Angus breeders right across Australia and are deeply humbled by the response to the sale. We look forward to seeing the ongoing influence of our genetics within your respective herds.

## Some of the highlights of the sale:

- 51/51 heifers avg \$8290
- 8/8 embryo lots Avg \$2044
- Heart Bara W1 \$34k to Banquet Angus Vic
- Heart Dolly W75 \$22k to Knowla Livestock & Blackwater Angus
- Heart Mildred W18 \$20k to Alto Rural
- Heart Flower W29 \$18k to MT Livestock
- Millah Murrah Flower R95 x Millah Murrah Trigger T308 embryos \$3k each to Rosskin Angus

**Heart Bara W1**

**Heart Dolly W75**

**Heart Mildred W18**

**Millah Murrah Flower R95**

A heartfelt thank you to our friends, family, Paul Dooley and agents and always to Struan and Mon from studstocksales.com whose efforts contributed to making the day such a success.

# HEART ANGLUS *Female Sale* 2026

# HEART ANGUS

*We would like to thank family and friends who help to make our lives easier during sale day.*
